

# 5 Stars – Quest to the Unknown by Annelies George

5 Stars

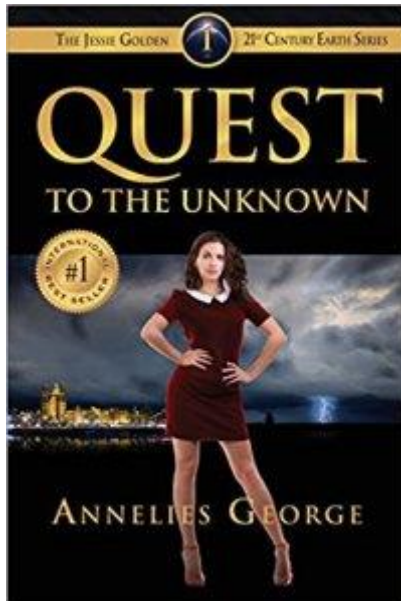

*Simply intending to get a story for her magazine, Jessie Golden is in for a world of romance and suspense in this riveting novel.*

Embark on a journey with up-and-coming Dutch journalist Jessie Golden. Jessie is sent on a trip to interview business mogul and playboy, Carlos Gomez. While in the process of fulfilling this obligation, that she most eager to accomplish, things don't go as smoothly as she would like. Jessie runs into a few setbacks, but then it appears that Fate cuts her a break. Through an unforeseen situation, she finds herself in the presence of Carlos Gomez. She finds herself attracted to this man, but remembers the warning of her boss – Gomez is a playboy and she needs to keep her guard up. Things begin to progress between Jessie and Carlos, but that's not the only thing that has begun to bud and grow. One evening Jessie discovers some files and they quickly pique her interest in the people mentioned in them. Who are this Nancy and her son? Why does she feel some familiarity towards them? Jessie has her hands full with her job, her romance with Carlos and her own investigation of who Nancy is and those connected to her. It won't be long before Jessie finds herself deep in various situations and circumstances. Some will have the potential to put her life at stake, while others will bring her closer to learning about something truly supernatural.

Quest to the Unknown by Annelies George is book one in her Jessie Golden 21<sup>st</sup> Century Earth Series and is like an intricate puzzle. The way that this story comes together and pieces together one piece at a time, once it grabs the reader it doesn't let go. You see the danger at hand as it creeps closer, but you never know who the true puppet-master is. That is something that I truly must commend the author on. The author hides the true face of evil very well and you won't see it coming until the end. If you're clever you will watch for hints, because the author gives them but very discreetly. The story brings some shockers as the layers of the book are peeled back. It's like an intense movie that holds your attention as it shifts back and forth between scenes, and so many things are happening that are so intriguing and will have you on the edge of your seat.

The mystery, the suspense, the hints and brushes of supernatural it is all artfully done by this author to create a truly successful story.

**Full Book Description**

Is Life on Earth about to be Changed? Dutch journalist Jessie Golden, an ordinary career woman, is completely unaware she has a special mission in life, relating to the existence of the human race on a completely changed planet. Living in Amsterdam she has a fast paced career as a young journalist, traveling around the globe. An interview with business mogul Carlos Gomez takes a completely different turn as he falls in love with her, and life couldn't be better. Jessie is pretty excited. With Carlos at her side, her future looks bright and promising. Her journey begins when she finds a folder full of information on a mysterious woman named Nancy and her son Paul, leading her to an unexpected quest. Soon thereafter Jessie is confronted with a series of unexplainable supernatural occurrences. She realizes there is no such thing as coincidence, although she can't unravel the true meaning of her quest nor her link to Nancy and her son. But the ways of the universe remain, however, a mystery. In the fast-moving business world and a life of glitter and glamour, not everything is what it seems. Jessie believes Carlos' father has ties with some questionable characters. Startled by a series of unexpected events she reaches out to Ed Turner, Carlos' right-hand man. In order to protect the one she truly loves, Jessie starts an investigation that points to the murky world of the mob. When a stranger is constantly following her, Jessie's life is in serious danger. Can the ones she implicitly confides in, still be trusted?

### About the Author

Annelies George was born in the Netherlands. After the gymnasium and a one-year course as an international secretary she started to work for a law firm, studying finance, management and law during the evening hours with the goal of becoming a lawyer herself.

A move to a different town marked the start of a successful career in the international IT Finance world. She accepted a variety of EMEA and regional management and sales roles with Cisco, Microsoft and Hewlett Packard among other companies. Due to the intensity of the job and long working hours, she abandoned her plans for a law degree.

Encouraged by two friends she resumed writing again at a later age, with the purpose of releasing a book detailing her personal adventures as a woman in a male-dominated business environment. Due to circumstances, she had to re-write the entire story. Frustrated, she stopped working on the book.

Soon thereafter she spoke to a psychic with an extraordinary life story, which inspired her to start writing again. Encouraged by her father who passed away as a result of cancer, Annelies completed three of the five books in the Jessie Golden Series with part 1 (Quest to the Unknown) recently released.

Annelies still lives in the Netherlands and alongside a full time job as Partner Manager for a French International finance company she is also taking care of her mother with Alzheimer's. She loves to paint and design necklaces when she is not writing. On occasion she likes to travel to discover new places and understand the different ways of living around the globe.
